
Governor Larry Hogan &
Members of the Maryland General Assembly
100 State Circle
Annapolis, MD 21401

Dear Maryland Lawmakers:

I am writing today to request that you vote in favor of **HB726 (SB690)** — Basic Health Program – Implementation.

A Basic Health Plan like the one proposed by the above legislation would create **affordable access to high-quality care** for more Marylanders. In this day and age, many hardworking Marylanders work multiple jobs but still don't qualify for healthcare through their employers.

I support this legislation because I want to help more hardworking Marylanders get quality health coverage that they can afford. Whether they're an Uber driver, or self employed, or they work multiple part time jobs, Maryland should make it easier for hardworking, taxpaying, Marylanders to afford a healthcare plan that at the very least tends to their basic needs.

Please also consider the following:

Thank you for doing the right thing and supporting **HB726 + SB690**. Hardworking people all over Maryland are counting on you.

Sincerely,
